CHINA AND JAPAN IN WAR AGREEMENT

Only So Far as Co-Operation in East Is Concerned-Text of Recent Statement.

Tokio, June 8.—(By the Associated Press).—The official statement issued by the Japanese government explanatory of the Chino-Japanese military agreement declares that this agreement agreement declares that this agreement relates only to co-operation by the two nations in defense of the peace and welfare of the far east, and explicity denies various rumors to the contrary. The text of the explanatory statement which accompanies the notes ex-changed between the two governments

"Having regard to the steady penetration of hostile influence into Russian territory, jeopardizing the peace and welfare of the far east and recognizing

welfare of the far east and recognizing the imperative necessity of co-operation between Japan and China adequately to meet the exigencies of the case, the governments of the two countries, after a frank interchange of views, caused the annexed notes to be exchanged on March 25 between the minister of foregn affairs and the Chinese minister at Tokio.

'In pursuance of the purpose of the notes the imperial government subjequently sent commissioners representing the imperial army and navy to Pekin, where they held conferences with the authorities of the Chinese army and navy. The negotiations progressing smoothly two agreements were concluded, one relating to the navy on May 19. These agreements embody only the concrete arrangements as to May 19. These agreements embody only the concrete arrangements as to the manner and conditions under which the armies and navies of the two countries are to co-operate in the com-mon defense against the enemy on the basis of the above mentioned notes ex-

changed on March 25.

"The details of the arrangements, constituting as they do a military secret, cannot be made public, but they contain no provision other than those pertaining to the object already defined.

pertaining to the object already defined.

"Currency has been given to various rumors alleging that the agreements contain, for instance, such stipulations as that the Chinese expedition is to be under Japanese command; that Japan may construct forts in Chinese territory at such places as she may choose; that Japan will take control of the Chinese railways, ship yards and arsenals; and even that Japan will assume control of China's finances, will organize China's police system, will acquire the right of freely operating the Chinese mines producing materials for the use of the arsenals, etc.

"It cannot be too emphatically stated that these and similar rumors are absolutely unfounded."

WILSON INTO BREACH

Summons Secretary of Labor to White House to Discuss Telegraph Squabble.

TO PREVENT STRIKE

(International News Service.)

Washington. June 8.—President.

Wilson today moved to prevent the threatened strike of commercial telegraphers and to hasten an adjustment of other pending labor difficulties, chief among which are the street rall-way strikes in several sections of the country. That the president believes the situation to be one requiring immediate action was borne out by the fact that he had summoned Secretary of Labor Wilson for a Saturday conference. It is only upon urgent oc-(International News Service.) ference. It is only upon urgent oc-casions that the president's appoint-ment pad contains a Saturday entry. It was learned today that he presi-dent is determined there shall be no dent is determined there shall be no interruption to war work and is prepared to take drastic action. It is understood that pressure is being brought to bear upon New bomb Carlton, head of the Western Union, whose refusal to recognize the jurisdiction of the war labor board precipation. itated the crisis, to give ground and Carlton may be summoned to the

Carlton may be summoned to the White House.

Secretary Tumulty was busy all day yesterday collecting data in reference to existing labor troubles, and as a result a mass of information was laid before the president today. This was gone over exhaustively before he went into conference with the labor scretary. It was expected in some quarters that a formal pronouncement, in which the president would call upon labor and capital to abide by the agreement promulgated by the national war labor board, might follow the conference.

Fuel Is Now Moving

More Easily.

(Associated Press.)

Moscow, Sunday, June 2.—The rail-road situation in Russia has improved

somewhat, according to the report made to the central executive commit-

tee of the soviet by N. Novsky, assistant commissioner of railroads. This is particularly true in Siberia, where coal

and other fuel are being obtained more

The assistant commissisoner said the

percentage of disabled locomotives was about 30. Cars showed a higher per-

centage and repair shops are unable to cope with the problems, owing to the

lack of metal and parts.

In European Russia the railroads are

congested with empty cars, the num-

per on some lines reaching 10,000.

Although the Germans captured scores of thousands of cars and several thousand locomotives, M. Novsky said, Russia still had plenty. In 1917 Russia had 560,000 cars and over 20,000 loco-motives, but the number was now con-

siderably less. The reduction would probably not be felt greatly because of

the reduction in Russian mileage from 45,000 to 35,000.

PREPARATIONS MADE TO MEET AIR ATTACK

Public Statement of Precautions Taken Might Furnish Information to Enemy.

(International News Service.) Washington, June 8.—Members of ongress were displaying considerable congress were displaying considerable interest today in the preparations for warding off any possible air attack on

Warding off any possible and the state of th department, it does not appear likely that any such action will be taken. With the excitement of the subma-rine sinkings off the Atlantic coast sub

beginning to realize that there is a possibility of an air attack and desire to know what protection there is. The steps taken by New York and Boston and other cities for their own protection against possible air raids have caused senators and congressmen to incurre what the war department has SERGEANTS.

CORPORALS.

caused senators and congressmen to in-quire what the war department has done and is doing.

Because of the possibility of any pub-lic statement on the preparations being of aid to the enemy, it has been prac-tically agreed that there shall be no public investigation. Secretary of War-Baker will appear before thesenate military affairs committee on Monday, however. Some members of the com-mittee have announced intention of making an inquiry in executive session

making an inquiry in executive session at that time. If they are not convinced that preparations are adequate they will introduce legislation at once to remedy the difficulty.

Provisions in the fortifications appropriation bill, now in the house, providing for aeroplane and balloon stations along the coast do not entirely satisfy members of congress. They besatisfy members of congress. They believe that there should be protection at once, and they intend to learn from the war department whether or not

there is protection.

Since the announcement of the first submarine attack off the Jersey coast there have been conflicting stories about our air defense at the capital. Members desire to learn authoritatively of conditions.

SITUATION IMPROVING WILSON URGES SUFFRAGE AS DEMOCRATIC STANDARD Most Trouble in Siberia, Where

> Washington, June 8.-Following is the text of a telegram sent this week by President Wilson to Hon. Leon S. Haas, of the Louisiana state senate, urging that the legislature of that state grant equal suffrage to its women:

"I hope that you will not think I am taking an unwarranted liberty in expressing my deep interest in the suffrage question now before your com-mittee. I cannot help regarding the settlement of this question as of worldwide significance and as affording s standard by which to judge our present interest i nthe complete establishment of democracy. I am moved to send you this expression of opinion by a very profound sense of the public interest.'

BEGIN TAKING

"NATURAL IRON"

Non-Alcoholic Iron Known As Acid

Iron Mineral Builds You Up.

Could You Play Nine Innings Of Good Hard Baseball Now?

Even if your nerves were good and you hit the ball against the fence could you make it "home," without getting "winded?" It's a long ways around when you are run down and "soft" like most of us are. Just an ordinary day's work at the office or plant, takes the "pep" out of a lot of us fellows and when the whistle blows or you jam down the desk you're tuckered out. This habit of street cars and motor cars is making a lot of we men mollycoddles when it comes to physical endurance and after all-what is endurance except health and vitality?

You'll Quit Fresh As a Daisy.

After you've taken Acid Iron Mineral a few days just notice how much stronger and better you feel after the day's work is done. Its the most economical, efficient, sensible and all round good tonic, blood purifier and iron remedy you can possibly buy. It goes two to ten times as far. A half teaspoonful in a glass of water is a regular dose. 50c or \$1 at your nearest drug store. Sent prepaid \$1 by Ferrodine Chemical Corp., Roanoke, Va.
